

NORTH STAR

- HD 8890 -

♩ = 96

Music & Lyrics: Olivia Sawano

A

1. North Star, shi-ning so bright, twin-ke-ling in the night.

5 North Star, glow-ing so gent-ly, gui-ding us from a-far.

9 We keep on look-ing back, we keep on look-ing a-head.

13 Four-hun-dred-thir-ty-four light-years a-way. When did we last look up?

16 (Look up, look up, look up, lo-ok up, lo-ok up.)

B

2. Night sky, blan-ket of stars, sooth-ing our souls in the dark.

24 Star-light, wi-se and old, so ma-ny tales to be told.

28 Some-times we can't for-give, some-times we can't for-get.

32 Four-hun-dred-thir-ty-four light-years a-way. Reach out and make a wish.

35 (Reach out, reach out, reach out, rea-ch out, rea-ch out.)

Shine on, shine on, shine on, shine on, shine on.)

1.
North Star
Shining so bright
Twinkeling in the night

North Star
Glowing so gently
Guiding us from afar

We keep on looking back
We keep on looking ahead

434 lightyears away
When did we last look up?

(Look up, look up)

2.
Night sky
Blanket of stars
Soothing our souls in the dark

Starlight
Wise and old
So many tales to be told

Sometimes we can't forgive
Sometimes we can't forget

434 lightyears away
Reach out and make a wish

(Reach out, reach out)

3.
North Star
One day you'll be gone
But your light travels on and on

And when it hits us
Like a note from the past
Like a gift that will last forever

We're gonna be alright
We're gonna be ok

'Cause 434 lightyears away
We spread our light to shine on

(Shine on, shine on)
